

BORDENTOWN HISTORICAL SOCIETY PRESENTS

# NATURE EXPLORATION & JOURNALING AT POINT BREEZE

**Saturday, June 16, 2018**

**Program at Divine Word at 1 PM**

**101 Park Street, Bordentown, NJ 08505**

Famous for its picturesque landscape, wonderful gardens, extensive art collection, and large library, Point Breeze was central to

American intellectual and cultural life in the Delaware Valley. Join the D&R Canal Naturalist, Stephanie Fox, for a nature walk at the Divine Word, whose missionary now sits on the Point Breeze property. We will cover the terrain where Charles Lucien Bonaparte once observed, studied and sketched wildlife and the landscape. Participants will be provided with a nature journal and given hints and techniques on how to connect closer to nature by sketching and the written word. This is a family friendly event and designed for beginner journal keepers to explore their creative side.

**\$5 Per Person. Registration Required.**
